MEMORANDUM FOR THE RECORD

SUBJECT: NSC Briefing Topics for 22 October 1954

1. The NSC meeting for this week is scheduled for 0900, Friday, 22 October. It has been agreed that the Director's major briefing topic will be a digest of NIE 11-6-54, "Soviet Guided Missiles," for which text is being prepared by O/NE and graphics by O/CI, both in consultation with O/SI.

2. Under these circumstances, there will be no Divisions' pre-NSC meeting for the assignment of additional briefing topics. Instead, divisions will exercise their usual responsibility for preparing briefing topics on items of particular concern, at their own initiative.

3. In this connection, it is hoped that reports of significant developments in the Saar conversations of this date (over and above press reports) will be received in time to permit preparation of a briefing topic, should the outcome of the conversations appear to threaten the London accords.

(a) electromatic text (original and six) by 1430, Wednesday, 20 October;

(b) carding on Thursday, 21 October (details to follow).
